

ROSELL MESEGUER

OVNI Archive

Born in Orihuela, Spain, Rosell Meseguer's relationship with the coast and the concept of space is profound. Her childhood visits to the shipyards of Cartagena and the mines of La Unión shaped her thematic focus on history, war, the coast, and mining, exploring their connection with the landscape and the processes of change within it.

Meseguer's work spans various media, including archives, photography, painting, installation, publications, drawing, and video. She delves into the intersection of science, technology, and art, drawing from documentation methodologies developed since 2001 at institutions such as the MoMA in New York, Tate Britain in London, and the Centre Georges Pompidou in Paris, among others.
